WELCOME

Dear Colleagues and Friends,

*On behalf of the Local Organizing Committee, it is my great pleasure and honor to welcome you to the **XXXVII European Conference on Molecular Spectroscopy (EUCMOS 2027)**, which will be held in the beautiful city of Málaga from August 29 to September 3, in Spain.*

For more than seven decades, EUCMOS has been one of the most prestigious scientific meetings in the field of molecular spectroscopy, bringing together researchers from across Europe and around the world. Throughout its history, the conference has provided a unique platform for the exchange of ideas, the presentation of cutting-edge research, and the establishment of new scientific collaborations.

EUCMOS 2027 will continue this distinguished tradition by gathering leading scientists, early-career researchers, industry representatives, and students working across the broad spectrum of molecular spectroscopy and its applications. The conference will showcase the latest advances in experimental and theoretical spectroscopy, emerging analytical methodologies, novel instrumentation, and interdisciplinary applications that address some of today's most important scientific and technological challenges.

The scientific program will feature plenary lectures by internationally recognized experts, invited and contributed presentations, poster sessions, and opportunities for networking and discussion. We are committed to creating an inspiring and inclusive environment that encourages scientific excellence, collaboration, and the exchange of knowledge among participants from diverse backgrounds.

Beyond the scientific program, Málaga offers a unique combination of history, culture, Mediterranean hospitality, and exceptional surroundings. We hope that the conference will not only provide an outstanding scientific experience but also allow you to enjoy the rich heritage and vibrant atmosphere of our city.

We warmly invite you to join us for EUCMOS 2027 and contribute to making this conference a stimulating, memorable, and successful event. Together, we will celebrate the achievements of our community and explore new directions for the future of molecular spectroscopy.

We look forward to welcoming you to Málaga in 2027.

With our warmest regards,

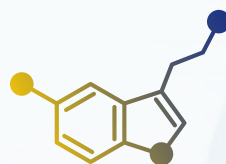

*The EUCMOS 2027 Local Organizing Committee
Málaga, Spain*
